

What is EBTA?

EBTA consists of a group of dedicated and experienced horse-owners, behaviourists and academics who have made a commitment to understanding equine behaviour and working with horses in a fair and effective manner.

EBTA provides support to anyone wanting to learn more about behaviour, we conduct research projects in areas where we feel there is insufficient overlap between academia and the "typical horse-owner" and we liaise with media organisations in order to help improve communication about equine behaviour.

Aims

EBTA aims to:

- ❖ Improve public knowledge and understanding of the physical and psychological well-being of equines
- ❖ Promote awareness of human behaviour and its impact on equine behaviour
- ❖ Bridge the gap between academic research and practical application
- ❖ Protect equine welfare whilst maintaining safety and achieving equestrian goals

What We Offer

- ❖ Free educational material about equine behaviour via a range of different media
- ❖ An initial point of contact if you are struggling with equine behavioural problems
- ❖ Advice to welfare charities and other organisations regarding equine behaviour and human behaviour change
- ❖ Research and educational projects
- ❖ Contributions to equestrian press

Get Involved

- ❖ Sign up to our Facebook Page
- ❖ Join our Facebook Q&A group for behavioural advice
- ❖ Visit our website for lots of behavioural information
- ❖ Host and/or attend one of our workshops or other events
- ❖ Contribute to our research projects
- ❖ Write an article for our website (discuss with us first)
- ❖ Sign up to our occasional newsletter

EBTA Values

- ❖ Move towards a more behaviour-based approach to equine management
- ❖ Encourage a variety of enrichment for domestic horses
- ❖ Promote a greater understanding of equine fear and stress in training
- ❖ Work towards a widespread reduction of aversive techniques in equine training
